This is my right to have this service and to listen to it. I pay for this service and enjoy listening to it. How many more rights are BIG money and politicians gonna take away from me. Our forefathers died to free us from taxes and Anarchy yet our own government continues to take us back to that way. I want my children to enjoy the same freedoms I have yet each day it seems I lose another one of those freedoms from BIG Money lobbyist and politicians. So I voice my opinion as a right I still have and want ((XM)) to continue their services that they offer so I can enjoy it.
